

Junior Full-Stack Developer skilled in ASP.NET Core, React.js, SQL, and the MERN Stack. Proficient in RESTful API design, OOP, and Entity Framework Core. Passionate about clean architecture, UI/UX optimization, and building user-focused software solutions.

### TECHNICAL SKILLS

---

<b>Languages</b>	C#, ASP.NET Core, React.js, JavaScript (ES6+), HTML5, CSS3
<b>Databases</b>	MS SQL Server, Firebase
<b>Tools</b>	Visual Studio, VS Code, Postman, Android Studio
<b>Version Control</b>	Git & GitHub
<b>Concepts</b>	Object-Oriented Programming (OOP), Entity Framework Core, LINQ, JWT Authentication, RESTful APIs
<b>Currently Learning</b>	MERN Stack, Tailwind CSS

### RELEVANT EXPERIENCE (Academic Projects)

---

#### Project Management | MERN STACK

[LINK](#)

- Developed a MERN-based project management tool with role-based access for Admins and standard Users.
- Built features for Admins to create projects, assign tasks, manage team members, and track overall progress.
- Implemented a drag-and-drop task board enabling Users to update task status easily and visually.

#### Blog Post Web App | MERN STACK

[LINK](#)

- Built a full-stack blog platform featuring user authentication, profile management, and secure CRUD operations.
- Implemented interactive features including comments, likes, and category-based filters (Latest, Oldest, Popular).
- Designed a responsive React.js UI and scalable Node.js/Express.js APIs backed by MongoDB.

#### Pronouncer Pro (Final Year Project) | React, ASP.NET Core, EF Core, SQL Server

[LINK](#)

- Developed a web application to help non-native English speakers improve pronunciation.
- Built RESTful APIs using ASP.NET Core and integrated React components for interactive lessons.
- Implemented paragraph-based learning modules, enhancing user engagement and pronunciation accuracy.

#### Book Store Mobile App | Android Studio, Firebase

[LINK](#)

- Created an admin-panel-based mobile app to manage books using Firebase real-time database.
- Implemented CRUD functionality for book management with synchronization and authentication.
- Focused on seamless data flow and real-time UI updates for better user experience.

#### Notepad (Text Editor) | WPF, C#

[LINK](#)

- Built a desktop application supporting file operations, undo/redo, and rich text formatting.
- Added zoom controls, font styling, and shortcut key support to enhance user productivity.

#### Cinema Hall Ticket Booking System | WinForms, C#, SQL Server

[LINK](#)

- Built a desktop application supporting file operations, undo/redo, and rich text formatting.
- Added zoom controls, font styling, and shortcut key support to enhance user productivity.
